

SLIM 50

Tradition. Quality. Design.

TIMELESS DESIGN

A slimmer profile that nearly disappears, leaving more light space to enter. Wing width is only 50mm, installed with or without a visible frame.

FEATURES

Outstanding results of technical tests, an aluminum threshold flush with the floor that merges the boundary between interior and exterior, and a modern design with a larger glass surface are just some of the advantages of our new Slim 50 product.
